

Trina

Collaborations

Trick Daddy is foundational to Trina's origin, while collaborations with Missy Elliott, Kelly Rowland, Lil Wayne, Ludacris, Nicki Minaj, and many women rappers map her cross-generational reach. Credits should specify whether she is lead, guest, or co-writer.

Her strongest collaborative role is often catalytic: a verse can sharpen another artist's record, while her public support of younger women resists the industry's habit of manufacturing one-woman-at-a-time rivalries.
